

May 2014
vCom Buzz

Hello!

There's never a dull moment at vCom, and this past quarter has been especially exciting. Hot on the heels of our great customer satisfaction scores, we achieved another milestone with employee satisfaction: for the seventh year in a row, we ranked in the [Bay Area Best Places to Work!](#) I'm extremely proud of our team, and I know that our commitment to our employees directly benefits you, our customer. This is an especially notable accomplishment as we had record company growth at 36%, placing us in the 51-100 employees category on the survey.

We've also been working extremely hard on developing our Enterprise Mobility Management (EMM) solution. Comprising Mobile Expense Management (MEM), Mobility Lifecycle Management (MLM), and Mobile Device Management (MDM), it's a robust solution that provides control and visibility into an enterprise's mobile environment, regardless of device type, plan, carrier, or feature-set. It's the perfect compliment to our Wireline Management solution and is available through vManager. Our team is excited to share this with you, but if you can't wait, feel free to reach out to us directly.

As always, I'd love to know what's on your mind and how we can better serve you!

Gary Storm, CEO

Mobility Solutions

We've unveiled our enhanced mobility solutions. Comprising Mobile Expense Management (MEM), Mobility Lifecycle Management (MLM), and Mobile Device Management (MDM), the solution is available in part or in whole to current and new customers. For more information about this exciting development, you can read our release [here](#).

vCom Ranked #11 in Bay Area Best Places to Work

For the seventh year in a row, vCom placed in the prestigious Bay Area Best Places to Work. This year we went up both in rank (to #11) and in size category, graduating to Small Company with 51 - 100 employees. This is a tremendous accomplishment and a testament to our commitment to our employees. You can read more [here](#).

Customer Summit 2014

[vCom Customer Summit 2014](#) is coming up and will be held in San Francisco from Wednesday, September

24 - Friday, September 26. We're finalizing the agenda and have made some exciting changes. We're kicking off with an informal reception on Wednesday night, and the Awards Dinner will follow the conference on Thursday. September is the most beautiful month to visit the Bay Area, so it's the perfect opportunity to squeeze in a long weekend.

vCom in the News

We were recently mentioned in an article by The VAR Guy. The article provides an overview of our Mobility Lifecycle Management (MLM) and Mobile Expense Management (MEM) solutions. You can read the article [here](#).

vCom Educational Series

The last of our three webinars about mobility is coming up on June 3! Focusing on cost allocation and chargebacks, this session is critical for any organization struggling to ensure the right charges get tagged to the right business units and for the right purpose. [Visit our website](#) to register and to download the materials from our previous two webinars.
