

TECH FOR BLACK FOUNDERS

IT spend is among the top three costs for businesses. Effective management can save millions. Take advantage of an exclusive Tech for Black Founders offer for vCom IT management software.

Exclusive benefits include:

- 12-month credit on platform license fees
- Includes full access to vCom's Enterprise IT Spend Lifecycle Managed Services and unlimited vManager software licenses

vCom software connects assets, vendors, and spend across locations and technologies.

Contracts, vendor selection, contract negotiation, orders, changes, trouble tickets, contracts, invoices, support...IT has a lot to juggle.

vCom connects and centralizes assets, vendors, and expenses and delivers complete IT management that saves time, saves money, and deepens insight.

Qualification criteria for access

All companies led by one or more Black founders that have personally funded or raised less than \$30M in venture capital, with fewer than 150 employees, and under 500k MAU are eligible for this program.

We request that founders apply personally and share with us how else we can help them. Our shared goal is to help you scale your business as rapidly and efficiently as possible. This program will be available for free to you in perpetuity as long as you continue to meet the shared criteria.
